TI - Floor covering material with pvc backing and pile
PR - BE19670700859 19670703
PN - BE700859 A 00000000 DW 196800 000pp
PA - (CROG) CROWN GEN INTERNATIONAL SA NV.
AB - BE-700859 Floor covering consists of (1) a base layer consisting of foamed or nonfoamed PVC, or of foamed rubber coated with a layer of nonfoamed PVC, and (2) an upper layer of knitted and roughened pile fabric, needle felt or carpet consisting of synthetic fibres.
- Layer (2) pref. consists of a polyamide. Layer (2) is directly bonded to layer (1) during the fabrication of the layer (1). The upper layer (1) is optionally provided with a decorative or publicity design.
- The upper layer (1) is firmly bonded to the lower layer (2), without the need for an intermediate layer of adhesive. The floor covering can be cut into sections for use as floor mats.
